Access to essential services is critical for all members of our community, but for those with low English language skills it can be almost impossible to connect with the services they need without the help of an interpreter.

As an interpreter, you can make a difference in people's lives!

Interested in becoming a trained interpreter?

Are you fluent in English AND a second language?

Let's talk training!

Immigrant Services Guelph-Wellington coordinates language interpretation in the Guelph-Wellington-Dufferin area.

ISGW also coordinates Interpreter training through local colleges and we're looking to grow our pool of trained interpreters.

Language interpretation is a great part-time job for trained individuals with flexible availability.

Start a career today!
